Pizzeria
- Designed ER model. Created SQL database. Developed Java application for interaction.

Virtual Reality on Android Gaming
- Created a captivating gaming environment using UNITY software, utilizing C# coding.

CERTIFICATIONS

- AZ - 900: Microsoft Azure Fundamentals
- Joy of Computing Using Python

PROFESSIONAL EXPERIENCE

Product Management Intern
International AIDS Vaccine Initiatives | May 2023 | Missouri

- Identify, evaluate, and build data analytics pipelines (Ex. Data mining, visualization of project, program, and portfolio data) for vaccine projects.
- Developed software solutions to seamlessly integrate vaccine project, program, and portfolio data, creating dynamic dashboards for real-time visualization and analysis of projects, programs, and portfolios.

Programmer Analyst
Cognizant Technology Solutions | Oct 2020 - Jul 2022 | India

- Served as a SharePoint Developer responsible for developing a Search Application for the World Bank Group using C# (.NET Framework).
- Integrated C# with SharePoint, SQL, and Azure to enable REST API calls, Data Storage, and Cloud computing services for the search engine.
- Developed and tested C# code to meet the requirements specified by the business team, effectively supporting job responsibilities.
- Contributed to the ITSOP Dashboard project by utilizing SPFx (client-side web part) to create distinct dashboards for resource deployment.
- Certified in Azure to enhance proficiency in developing the search application.

SharePoint Developer Intern
Cognizant Technology Solutions | Jan 2020 - May 2020 | India

- Acquired knowledge of Web Technologies and gained proficiency in HTML, CSS, Bootstrap, and JavaScript, with a specific emphasis on SharePoint Framework.
- Successfully executed a project involving the development of SPFx web part with React Framework using Typescript and SharePoint Online. The project focused on developing a Sales system solution for a medium-sized automobile company.
